AUTUMN / WINTER CATALOGUE 1994

WELCOME TO YOUR GUIDE TO GREAT VALUE

If you change your mind and decide that a product you have bought does not meet your exact requirements, we offer you the opportunity of returning it within 16 days of purchase, for a full refund or exchange.

We simply ask that it is returned in its original and unspoilt condition, with its original wrapping and your receipt. Please note this promise does not apply to earrings for pierced ears, food products, camcorders, pre-recorded music or videos, computer software, fresh flowers or Christmas decorations. This guarantee does not affect your statutory rights.

This Superstore catalogue contains all the products which are available from our Traditional Argos stores, plus an additional 2,800 lines which are exclusive to Superstores. To make it easier for you to find what you want, we have combined our Traditional and

Superstore ranges so you can see the full range Argos has to offer.

Products marked by these symbols are exclusive to our Superstores, and are not available from Traditional Argos stores.

Please see the back of the catalogue for your nearest Argos Superstore.

How to shop Shopping is simple:

- 1 Write the catalogue number and the quantity of the goods you require on a selection form (there are some included in this catalogue as well as in-store).
- 2 Take the form to a service point.
- 3 Whilst you are paying, your goods will be brought to the collection counter ready for you to collect. Some of our larger items can also be ordered by telephone and delivered to your door. Please see page 678 for details.

PLEASE NOTE:

• Some of the goods which are shown in the catalogue may vary slightly if a supplier has changed or altered their specifications after the catalogue has been printed. If this should happen, we will try to help by offering you alternative goods of a similar specification and value to your original choice.

- All sizes are approximate.
- Please check the in-store catalogues before ordering.
- Under exceptional circumstances, we may have to make adjustments to our prices stated in the catalogue (which include VAT at 17%).
- All items are subject to availability.

Tax Free Shopping

Overseas visitors may qualify for Tax Free shopping, saving on the cost of their purchases. Customers from countries within the European Community cannot reclaim VAT. Please ask in-store for details.

WAYS TO PAY

Debit Cards

You can pay for your purchase with either of the debit cards shown.

Cash, Cheque or Credit Card

You can pay for your purchase with cash, or any one of the credit cards below. You can also pay by cheque and if you have a valid cheque card, we will give you immediate clearance on cheques up to £500 (subject to status, you may also need additional identification).

Argos Personal Account

With the Argos Personal Account you can afford what you want now, and then spread your payments over time. Please ask in-store for details. APR 27.8%† (Subject to variation).

†When payment is made by Direct Debit. A written quotation is available on request.

Up to £1,000 Instant Credit*

Please ask in-store for details. *Subject to status. Available to most adults. Argos is a licensed credit broker.

Premier Points

You can also pay by redeeming your Premier Points. See page 679.

Argos Gift Vouchers

Ideal for a gift or special occasion. See page 679.

We also accept Provident and Choice Shopping Vouchers.

EXTENDED GUARANTEES

Nothing in life is certain and whilst we always endeavour to provide you with the best quality products we would recommend that you take out an Extended Guarantee for extra peace of mind.

Extended Guarantees work very simply by providing:

- Cover for repair costs after the first year.
- A choice of either 3 or 5 years* cover.
- Renewable cover and affordable prices.

They cover both parts and labour costs due to faulty workmanship or materials used in manufacture. Our full range and list of prices is shown opposite.

*A 3-year guarantee extends the 12 months manufacturer's guarantee for a further 2 years to a total of 3 years. A 5-year guarantee extends the manufacturer's guarantee for a further 4 years to a total of 5 years, after the date of purchase.

The above guarantees do not affect your statutory rights. Extended Guarantees are underwritten by Cornhill Insurance plc.

How to Purchase

Buying an Extended Guarantee is simple, and can be done at the same time as buying any other Argos product.

- 1 Fill in the appropriate catalogue number on a selection form.
- 2 Take the form to a service point.
- 3 After paying, you will be directed to the collection counter where a member of staff will take all the necessary details to complete your insurance cover.
- 4 You will then be given a copy of the agreement to keep. This will also tell you what to do if you need to make a claim.

Free Accidental Damage Cover

We also offer FREE first year accidental damage cover on all the items shown below (except camcorders). To apply simply pick up a leaflet in-store. If you do buy an Extended Guarantee, then we will automatically include the free accidental damage cover.

Hallmarks

Items of jewellery can come with various hallmarks. The following information should help you understand more about the quality jewellery you can purchase from Elizabeth Duke.

A B

The Sponsor's Mark. The initials belong to the article maker or sponsor.

The Quality Mark. Certifies the quality of the gold and indicates its recognised carat value eg *375 is 9ct gold and *750 is 18ct gold.

The Assay Office Mark. Shows the place where the gold was tested for quality. Birmingham has an Anchor, Sheffield a Rose, Edinburgh a Castle and London a Leopard.

The Date Letter. A letter of the alphabet indicates in which year the article was made eg 1991 an "R", 1992 an "S" and 1993 a "T". This changes each year.

Guaranteed Diamond Weights

Diamond weight is measured in carats and points. One carat is divided into 100 points.

- 1 Carat=100 points.
- 1/2 Carat=50 points.
- 1/4 Carat=25 points.

Where diamond weights are quoted for Elizabeth Duke jewellery, they are a guaranteed minimum weight for your assurance of quality and value.

CLADDAGH
The Claddagh is an Irish love symbol which has been used for more than 400 years. The symbol, which is a heart with two hands holding it, is said to have been worn by the people of Claddagh, who were once slaves, as a sign of their love for their homeland.

T-BAR CHAINS

This traditional design of jewellery was originally worn as a pocket watch chain. In the 19th century they were made popular by Prince Albert giving them the name "Albert Chains". Today they are worn as a fashionable jewellery item on neck chains or bracelets.

DEAREST
In Victorian times, a gentleman would give his lady a gold watch as a token of affection for her. The watch was the most valuable thing he could give her. The watch was the most valuable thing he could give her. The watch was the most valuable thing he could give her.

CAMEO
Each cameo is individually
hand carved from a single
shell and set into a gold
mount. Only back or three carats
every piece unique.

CLADDAGH
This Claddagh is an Irish symbol which has been used
for more than 600 years. The symbol stands for love, loyalty
and faith. It is used to show an emerald heart, and some facing
correctly is not to show the crown is in love.

15S

Our Cultured Pearls are picked from the finest body of shell far East, with water as thin as a piece of jewelry.

CAMEO

Each cameo is individually hand carved from a rock shell and set into a 9ct gold mount. Only two or three cameos are carved from each shell, making every piece unique.

All items are gift boxed

See 1, 14, 17, 24, 27 and 32 for details about
other models.

Watches that are designed splash
proof are suitable for wearing whilst
water is being splashed but NOT under
any pressure ie swimming and
showering.

Watches that are designed water resistant
are suitable for wearing whilst
swimming for a short period.

All quartz watches are dependant on
batteries for their power source.

Our suppliers adopt a policy of
continuous improvement. Hence there
may be, during the life of the
catalogue, minor variations in models,
specifications and colours.

 Item no 29 is a
Mechanical Movement
Watch. No batteries
required. Needs daily
winding.

WATCHES

CHRONOGRAPHS - Item nos 22-34 all feature normal time and basic stop-watch timers. For more information about chronograph watches, ask in-store for details.

Watches that are designated splash proof are suitable for wearing whilst water is being splashed but NOT under any pressure ie swimming and showering.

Watches designated water resistant are suitable for wearing whilst swimming for a short period.

All quartz watches are dependant on batteries for their power source.

Our suppliers adopt a policy of continuous improvement. Hence there may be, during the life of the catalogue, minor variations in models, specifications and colours.

Telephones

PHONEDAY

All Argos telephones are compatible with the national code change scheme due on April 16th 1995.

MERCURY

You can now use the "Mercury" network from your home via a British Telecom line. For a small annual fee you will receive your own PIN code giving you access to cheaper long distance and international calls. A "Mercury" button will allow one-touch dialling into the Mercury system. Other "Mercury compatible" telephones enable programming of the sequence into a normal memory.

Please phone the Mercury Helpline (500 500 194 for further details).

Argos offers a wide range of telephones and to help you choose, we have explained the features available. All Argos phones need a

Features Guide

Memories

You can store your frequently used or important numbers, and recall them at the touch of a button or two.

Last Number Re-dial

The telephone can automatically re-dial the last number you dialled, which is very useful when a number is engaged.

Mute (Secret) Button

This allows you to speak to other people in the room without being overheard by your telephone caller.

On-Hook Dialling/Hands Free Speech

"On-Hook Dialling" enables you to dial without lifting the receiver. A speaker allows you to hear when the phone is answered, then you simply pick up the handset to speak. "Hands Free Speech" allows you to speak and listen with the receiver still in place.

Ring Equivalent Number (REN)

The number of telephones you can connect to a line is determined by the REN of each telephone. The maximum total REN for a telephone line is 4.

Volume Control

This allows you to adjust the volume of the telephone ring.

PABX

PABX compatible telephones can be used with most PBX exchange or switchboard systems. Please see the manufacturer's instructions, or use the helplines for further details.

Cordless Phones

Cordless phones allow you to receive or make calls around the home and even in the garden. You can page

plug-in type socket. If you do not have this type of socket, contact British Telecom and enquire about conversion.

the handset (or user) from the base unit, and some also have an **Intercom** between the base unit and the handset.

The base unit must be connected to a mains supply as well as an approved telephone socket. The handset recharges whilst it is in the base unit. A battery back-up enables the telephone to be used during a power cut. The quality of reception is unlikely to be as clear as with a conventional telephone as they are susceptible to interference from other cordless phones and radio transmissions, especially over long distances and obstructions (walls or doors).

Cordless phones operate on 8 different channels - as marked on the box. **Dual channel** telephones have 2 channel options so you can switch the handset and base unit to an alternative channel.

8 Channel Automatic Scanning - cordless telephones will scan all of the 8 available channels to provide the best reception when a call is made. Should interference occur during the course of a call the operating channel can be changed by pushing a button on the handset.

Comander/Digital Noise Reduction - is now available on many newer cordless phones offering improved reception by filtering out background noise. Cordless phones are also available as combination units with an answering machine or speakerphone in the base.

Network Services

If you have a dual signalling (Pulse/Tone) or Touch Tone telephone, you may be able to use the new BT "Network Services" including call diversion, 3-way calling, reminder calls and call waiting. These additional services are available from BT for a quarterly rental charge, please contact your local BT office for further information.

Your
Guide to

Answering Machines

An answering machine will record messages and many include a handset for use as a normal telephone. To install your machine you need a 15 amp mains socket near to a plug-in telephone socket. A separate answering machine may also need a telephone socket doubler to connect alongside your telephone. This is indicated in the text where necessary.

Features Guide

Cassette Tapes

Most machines use a micro rather than a standard size cassette.

Digital Outgoing Message

Your outgoing message is recorded onto a digital voice chip, avoiding the need for the tape to shuttle between the outgoing and incoming messages, thus cutting down on the waiting time of your caller.

Digital Voice Prompt

A digital voice will guide you through the various operations, and give you information such as the number of calls received.

Day/Time Stamp

This records the exact time and day of all incoming messages.

Memo Facility

You can leave a message on your machine for someone else to access on their return.

Call Screening

This allows you to listen whilst the answering machine takes your call, and choose whether or not to answer personally.

Answer Only Option

The answering machine can answer a call without taking a message. This is useful if you are away for several days.

Two Way Conversation Recording

This allows you to record a telephone conversation, and can be useful when listening to directions or instructions.

Branch Phone Reset

Your answering machine will stop and reset automatically when you intercept a call on another extension.

Remote Message Retrieval

You can check your calls even while you are out. Using a "Touch Tone" or multi frequency telephone (which produces a variety of tones as you dial) or a remote control device, tone retrieval activates your answering machine to play back any recorded messages. Some machines can also execute other remote functions such as changing the outgoing message.

*Touch Tone is a BT registered trade mark.

Call Count

This will display how many calls have been recorded, usually on an LCD panel or by a flashing LED.

If you are building up your business, from an office or your home, you will be looking for the latest office equipment. At Argos we now sell a wide range of business equipment, and all at affordable prices. To help you with your choice we have explained some of the features relating to our range of Typewriters and Word Processors.

Typewriter Features

Correction Memory enables you to correct up to two lines of current text, so if an error is made you can simply relocate and delete it. A **Text Memory** facility allows you to store information/text of varying amounts. This can range from 3 pages of text with a 6k memory to 6 pages of text with a 12K memory capacity. A **Liquid Crystal Display (LCD)** allows you to review and edit text easily on screen before printing. A **Justification** facility allows documents to be produced with the right hand margin blocked so sentences are of equal proportion regardless of the number of words, giving a professional appearance. With a **Spellcheck** facility spelling mistakes can be checked, enabling documents to be free from spelling errors. A **Decimal Tabulation** facility automatically positions the carriage for alignment of numbers at the decimal point. The **Print Speed** of a typewriter is measured in CPS (characters per second) and the **Typing Pitch** designation represents the number of characters that can be typed per inch.

Word Processors

Word Processors offer all the benefits of an advanced typewriter but with the additional features of larger displays and a bigger memory capacity. The memory of all our Word Processors can also be expanded by the use of an external 3 1/2 inch floppy disk.

Features

Using the **Block Copy/Move/Delete** feature, blocks of text can be copied, moved or deleted to allow simple and quick editing. A **Search and Replace** facility enables editing of a specific word or phrase throughout a piece of text in one single operation.

Using **Address/Mail Merge** a list of names and addresses can be merged with a letter, this enables you to provide personalised correspondence easily. If a word is misspelled the **Autospell** facility provides alternatives and automatically replaces them. **MS DOS File Format Compatibility** allows storage of information in DOS format to enable data exchange with PCs.

Printing Formats

There are 3 printing formats available on our range of word processors. **Daisy Wheel** produces letter quality print at a speed of 13-15 characters per second. The type style can be changed by fitting an alternative daisy wheel. **Thermal Transfer** prints onto normal paper and is quieter and more flexible enabling a variety of fonts, styles and sizes to be produced. Draft and letter quality printing is possible at a faster speed than daisy wheel printing. **Bubble/Ink Jet** printing uses a non-impact method which forces ink onto the paper creating near laser quality print. It is quiet and fast and offers the flexibility of various fonts, styles, sizes and shades.

Argos Mail Order Service

To cater for all your needs we also offer a mail order service for ribbons, daisy wheels and software accessories on typewriters and word processors. Simply call 061 976 4505 (24 hours) for credit card holders, or alternatively pick up an order form from your Argos store. No stamp is required.

Computers

Features

The Argos range of PCs has been chosen to offer a choice of configurations, and all come pre-loaded with a suite of software to enable you to get started right away.

Processing Speed

The speed of the computer is determined by both the processor type and the clock speed. The clock speed is measured in megahertz (MHz), the higher the MHz, the faster the processing. A DX Processor utilises a maths co-processor to speed up calculations and graphics.

Memory

Computer memory size is judged by how many bytes of data it can hold, normally measured in megabytes (MB) - 1 million bytes.

Random Access Memory (RAM)

This is the working memory utilised whilst in operation. Information held in the RAM is lost when the computer is switched off, therefore this needs to be stored on hard or floppy disks.

CD-ROM (Compact Disk Read Only Memory)

This is a device for reading information stored on compact disk.

Hard Disk Drive

This is a permanent high capacity storage device which is located in the system unit. The pre-loaded

operating systems and application software are stored on the hard disk drive.

Floppy Disks

These diskettes enable you to introduce new programs to the PC and also to store information externally from the computer. The amount of information that can be stored depends on the size and density of the diskettes.

The PCs available from Argos are all fitted with 3.5" floppy disk drives which operate with both double and high density diskettes.

Multi-Media

Multi-Media uses the PC to mix still and motion video, sound, text and graphics to present information, eg an encyclopedia, in an interactive form.

Sound Card

A sound card greatly enhances the PC's sound capabilities.

VESA Local Bus

The Open range of PCs provide expansion slots to enable the use of VESA (Video Electronics Standard Association) Local Bus Peripheral cards. A graphics card will enhance the speed and performance of graphics, and a Hard Disk Controller card speeds up the movement of information between the Hard Disk Drive and the processor.

Printers

The most common printer used with word processors and PC's is the Dot Matrix. Recently, ink or bubble jet printers have become more popular.

The Dot Matrix

These printers create an image on the paper using a row of 9 or 24 pins. The pins rapidly strike a ribbon onto the paper. A 24 pin printer is able to create a much smoother outline for letters and graphics since it uses more dots per inch.

Ink/Bubble Jet Printers

These printers use a non-impact method of printing. Ink is forced onto the paper creating the image with near laser quality print. A key benefit is it prints more quietly.

DPI (Dots Per Inch)

This refers to the density of the print, the higher the DPI, the higher the density of the print.

Variable Print Speed

Variable print speed is measured in CPS (characters per second). The slower the speed, the greater the print definition.

Common Terminology

Draft: Low density, fast printing to check accuracy and initial layout of document.

NLQ: Near letter quality

LQ: Letter quality.

Friction Feed Facility

Enables you to handle single pages through the printer whereas the **Pull Feed Tractor** facility handles a continuous supply of paper.

Buffer Memory

This enables you to store information being transmitted from the PC ready for printing.

Fonts

These are different typesets to enable various presentations of your work.

L.E.D. Printers

L.E.D. (Light Emitting Diode) is a non-impact printing technology, similar to laser printing. The printed image is formed by an array of L.E.D.s directly illuminating a photographic drum unit. L.E.D. printers offer a considerable reduction in both size and noise.

We operate a mail order service for printer accessories. For credit card orders, please ring 061 976 4505 (24 hour service) or alternatively pick up an order form from your local Argos showroom. No stamp required.

Fax Machines

A fax machine needs to be plugged into a new style phone socket and the mains. Some fax machines have an internal fax switch and can direct the incoming call to either the fax or telephone as appropriate, others also allow connection to an answering

Features Guide

Half Tone Reproduction produces shades of grey and not just black and white, giving greater clarity for photographs or brochures.

Superfine/Fine Mode allows for a better reproduction of detailed documents/drawings with the facility for fine print.

Auto Document Feed lets you set up a number of pages for automatic transmission or copying in sequence.

An Activity Report provides a summary of information transmitted and received.

machine. However, if you have extension phones you may require an external fax switch. This enables the use of the fax with an answering machine and extension phone all on one line. To help you with your choice, we have identified some key features.

An Automatic Paper Cutter automatically cuts paper to the length of the message received.

Anti-Curl System - a special paper feed mechanism reduces curling making your fax document easier to handle and store.

A TAM Interface enables connection to a telephone answering machine so that messages can be automatically directed to the fax or the answering machine.

REN - The maximum Ring Equivalent Number for a phone line is 4. Your equipment may not function correctly if this is exceeded.

Beds

At Argos we offer a comprehensive range of beds which provide a high standard of quality and comfort at affordable prices. When choosing your bed the combination of mattress and base play an important part.

Features Guide

The Mattress

Open Coil Springs. Rows of tempered springs are linked together with helical wires to spread your weight evenly across the mattress.

The Base

The firmness and support of the mattress is further complemented by the type of base.

Platform Top

With no springs, which adds greater support to the mattress.

Care of your New Bed

After delivery, keep the bed uncovered for a few hours to allow the mattress to air thoroughly. Do not roll or bend the mattress. Turn the mattress frequently from end-to-end and side-to-side.

Headboards available on page 209.

Every bed complies with the British Standard BS1777 for resistance to ignition of mattresses, divans and bases.

Airsprung

Manufactured under a quality system approved by BS5750. Made with individually tempered springs and spring units. These units are covered with a unique bonded natural coir fibre insulation pad called "Fites" which virtually eliminates spring feel softer upholstery layers are then added to increase overall comfort. A deep quilted finish maintains a constant high level of comfort to the total sleeping area.

Layezee

BS5750
APPROVED
MANUFACTURER

Manufactured under a quality assurance system accredited to BS5750, the deep quilted mattress features a traditional spring unit, upholstered with layers of natural fillings and covered with a durable, printed fabric. Layezee Beds combine comfort with the correct level of support to ensure a good night's sleep.

Silentnight
No Roll Together

Luxuriously microquilted and combined with a unique wedge-toe spring unit. Springs are joined by helical wires transferring weight up and down, not across, resulting in no roll together.

Perfecta
beds

Features 13.5 gauge spring unit, deep quilted mattress with a stitched border. The deep base has a platform top for those who prefer a firmer feel.

IONISERS - help to create a healthier environment by restoring the balance of negative ions in the air. They help to remove "pollutants" such as dust, smoke and pollen, giving the air a fresher, cleaner feel and may help sufferers of hay fever and asthma.

AIR PURIFIERS - help to clear the air of smoke, pollen and dust by the use of multi-stage filters leaving it fresher and cleaner.

AIR SYSTEMS - are ionisers and air purifiers combined.

EXTRACTOR FANS - Pull stale indoor air outside, removing heat, moisture, odours and pollutants. Items nos 18 and 19 must be permanently connected to a 240V ac electrical supply. If in doubt, consult a qualified electrician. All sizes quoted are approximate. Batteries are not supplied unless otherwise stated.

GAS FIRE & SURROUND

PRIOR TO PURCHASE. We recommend that this inset gas fire is used in conjunction with the "Fareham" fire surround. If an alternative surround is used, it must have a non-combustible back panel and hearth.

NB: The distance between the mantelpiece (average 6 inch thick) and the top of the fire must be in excess of 6 inch. The chimney must be of a class 1 construction and we recommend that it is swept prior to installation. Gas appliances should only be connected by an approved CORGI installer (Council for Registered Gas installers) who will undertake the gas work, final connection and safety checks.

For any queries regarding this fire please phone 0352 730903 during office hours.

For installation, please telephone 0703 556235 or contact your local CORGI installer.

PROTECTOR

SINGLE/DOUBLE 3 £7.99

1 WATERPROOF DUVET COVER SET.
Single size. Comprises a mattress protector, one pillow protector and a duvet protector. Will protect your whole bed from any liquid spillage and therefore prolong its life. Dust mites are a major contributor to the symptoms of asthma and other allergies. As the waterproof bed set is made from non-allergic and non-penetrable material it helps to keep dust mites from breeding. It is suggested that you vacuum your mattress thoroughly before using the mattress protector.

Please note the thermal insulation (warmth) of a duvet is expressed by the term "tog". The higher the tog rating the warmer the duvet. The British Standard minimum tog bands are as follows: 4.5 tog, 6.0 tog, 7.5 tog, 9.0 tog, 10.5 tog, 12.0 tog and 13.5 tog. All our duvets conform to the tog bands in BS5535.

POWER SHOWERS
A power shower not only gives you enhanced performance over other shower types by boosting the water pressure to your shower head but it is also economical to run, as it will use your existing hot and cold water supply.

It is recommended that shower heaters are installed by qualified tradesmen. All must be plumbed to cold water mains and permanently connected to 240V ac electrical supply.

GUIDE TO SELECTING YOUR IRON

EASIER IRONING THANKS TO ULTRAGLIDE SOLEPLATES

410/4610 £36⁰⁰

MORE STEAM FOR MORE EFFECTIVE IRONING

The more steam an iron produces, the **easier and more effective** it is to use. Tefal irons give generous amounts of **controllable steam** to make even the most stubborn creases disappear with minimum effort.

The Filter Scale iron (cat no 410/4634) also features a vertical steam facility, ideal for garments such as suits, curtains and even silks, all of which could be ruined by an overly hot soleplate.

Available only with Tefal irons, the Ultraglide soleplates have been designed to **reduce resistance and friction** to a minimum, allowing the iron to glide more smoothly and more easily than any other iron.

Durable and hard-wearing, the Ultraglide soleplate is also very easy to clean.

NO SCALE BUILD-UP MEANS MAXIMUM PERFORMANCE

If you live in a hard-water area, the 2017 (cat no 410/4634) and 1962 (cat no 410/4627 - featured on p.283) models feature an anti-scale cassette, which **filters out scale** altogether from the water. This ensures your iron will continually produce excellent steam levels - replace the cassette not the iron.

All Tefal irons incorporate an ingenious removable anti-scale valve at the point where scale often blocks the water supply.

CUT IRONING TIME BY UP TO 20%

410/4768

£129⁰⁰

With a Tefal Steam Generator working for you, tests have proved you will cut your ironing time by as much as 20%.

For the most professional results at home, Tefal have developed the Steam Generator (cat no 410/4768) giving you one litre water capacity which delivers **1½ hours of continuous steaming**.

Because steam is produced in a separate boiler unit, there's a **continuous high level** of steam to iron even the most difficult garments. Meanwhile, the iron remains lightweight and easy to manoeuvre.

This iron is also capable of steaming vertically, which is ideal for suits, curtains, jackets and especially silk.

Microwave Ovens

To help you choose we have explained a little about microwave ovens and their benefits.

The Benefits of a Microwave Oven

- Microwave ovens can be used for most types of cooking, for defrosting, and for reheating pre-prepared foods.
- Cooking by microwave is up to 75% faster than a conventional oven and, as less energy is used, is more economical.
- Food cooked in a microwave oven remains nutritious and tasty since the food is cooked so quickly that it retains more of its goodness, with less loss of vitamins and minerals. Most food can also be cooked without the addition of fat.

How a Microwave Oven Works

Microwaves produce heat by friction, caused by the moisture molecules in food vibrating against each other very quickly. Microwaves penetrate the food surface and the heat is then transferred to the centre of the food by means of conductivity, hence the need to allow for standing time and stirring.

Quality and Safety

All our microwave ovens conform to both British and International Electrotechnical Commission Standards of Safety. They are also appraised by our own Quality Control department. Most new microwave ovens now display a label relating to the new heating instructions on small food packs (eg ready-made

This is an example of the oven label!

Points to Remember

- Allow sufficient standing time after cooking for heat to pass to the centre of the food.
- If possible, stir or rearrange food halfway through cooking, reheating or defrosting to ensure even heating.
- Reheating of food must be carried out at a temperature higher than 70°C for at least 2 minutes.
- Food straight from a refrigerator is colder than room temperature and allowances should be made when calculating cooking times.
- All instructions for microwave cookery are to be used as a guide, foods may require slightly more or less cooking, reheating or defrosting time.
- Always follow manufacturer's instructions and any cooking instructions on the food pack.

Your Guide to

Microwave Features

This features guide explains some of the key functions you may wish to consider before you purchase your microwave oven.

EXTENDED GUARANTEES

All microwave ovens have a minimum 1 year manufacturer's guarantee. However, for added peace of mind, you can take out an Argos 3 or 5 year Extended Guarantee. See page 3 for details.

3 Year Cover 885/0173 £22.99

5 Year Cover 885/0678 £38.99

We also offer free Accidental damage cover, see page 3 or ask in-store for details.

HELPLINES

If you have any queries about your microwave oven please call the appropriate helpline during office hours.

All electrical items shown on these pages are supplied fitted with a plug.

Size/Capacity

The interior capacity of a microwave oven is measured in cubic feet. This can be used as an indication of the amount of food which can be cooked, defrosted or reheated.

Controls

All our ovens are controlled by either a dial or, for more accurate timing - and programming, by key pad. All have timers, automatically switching off the cooking cycle once cooking is complete.

Output Power/Wattage

The higher the wattage, the more powerful the microwave oven so the faster it will be able to cook.

Turntables

All of our microwave ovens have rotating turntables to ensure even cooking. Some have special boomerang turntables which return to the original starting position when cooking is finished - this is useful for removing handled pots from the oven. All turntables are removable for easy cleaning.

Grills

Some microwave ovens have a grill, which will brown and crispen food whilst combining the speed and convenience of a microwave oven. Grills can be used simultaneously on some of our models. (See individual products for details.) The following features are exclusive to key pad operation models only:

Sequence Cooking

This feature allows you to programme the oven to cook at different power levels for different lengths of time, in sequence, enabling you to automatically defrost, cook and keep food warm until you are ready to eat.

Programmable Memories

Some microwave ovens have a memory facility which enables you to store your most used setting for defrosting, cooking or reheating.

Delay Start

This allows you to delay the start of your cooking while you are out, so that your meal is ready when you arrive home.

Auto Weight Defrost

Simply key in the weight, type of food and the power level, and the cooking time will automatically be calculated for you.

Auto Defrost

This feature means that the power level is gradually reduced in stages to ensure that food is thoroughly and evenly defrosted.

Auto Weight Cook

Simply key in the weight, type of food and the power level, and the cooking time will automatically be calculated for you.

Combination Ovens

Combination ovens combine the versatility of a microwave, grill and convection oven all in one. You can use a combination oven as a microwave, grill or convection oven. This gives you the speed and efficiency of a microwave, with the advantages of an ordinary convection oven - which brings out the flavour, browns, and crisps your food.

Most foods can be cooked in combination mode, but combination ovens are particularly good for roast meat and poultry, cakes, vegetables and baked desserts.

COATINGS:

There is a variety of non-stick coatings on cookware sold by Argos. As a rough guide the more layers the coating consists of, the longer lasting it will be. Listed below are the types of non-stick coatings and their number of layers.

2 LAYERS

* Du Pont registered trademark.

All capacities stated are to the "brim" and are approximate.

D Much of the cookware sold by Argos is dishwasher safe (see symbols).

Continual use of products at very high temperatures may reduce their life expectancy. Please refer to your manufacturer's instructions regarding use in a dishwasher.

Always condition non-stick surfaces lightly with vegetable oil after use in a dishwasher.

Please refer to the instructions and recommendations of your ceramic hob manufacturer before purchasing cookware.

COATINGS:

There are a variety of non-stick coatings on cookware sold by Argos. As a rough guide the more layers the coating consists of, the longer lasting it will be.

* Du Pont registered trademark. All capacities stated are to the "brim" and are approximate. Please refer to the instructions and recommendations of your ceramic hob manufacturer before purchasing cookware.

D Much of the cookware sold by Argos is dishwasher safe (see symbol).

Continual use of certain types of products at very high temperatures may reduce their life expectancy. Please refer to your manufacturer's instructions regarding use in a dishwasher. Always condition non-stick surfaces lightly with vegetable oil after use in a dishwasher.

All Prestige pressure cookers sold by Argos are now fully assembled and ready to use. If you have any queries on Prestige pressure cookers please call the Prestige Helpline: 0800 242218. Spare/repairs: 0282 831016.

Please note the Prestige guarantee does not cover perishable items such as gasjets and ready to serve indicators.

PHILISHAVE[®]

Philishave with the unique rotary action for the closest possible shave. A close shave is what most men try to achieve and most women admire. So choose from the traditional three head Philishave or twin head including Philishave Tracer, all with a wide range of features.

For the man inside

MICROGROOVE

For an even closer shave Philishave have designed new improved shaving heads with 'Microgroove' on models H5990, H5976, H5925, H5890.

LIFT AND CUT

A unique piece of micro-technology comprising a lifter and cutter that perform together with micro-precision gently lifting, then cutting the stubble before the hair sinks back into the skin.

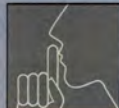

SELF SHARPENING BLADES

The cutter blades are specially ground to a sharp edge and rotate at high speeds sharpening themselves as you shave.

FOLLOWS CONTOURS OF THE FACE

The three floating heads move completely independently of each other following the contours of the face perfectly.

SILENT POWER

Selected Philishave now feature a technologically advanced 'Ultra Quiet' motor. Listen to the radio or chat on the phone!

TWIN POWER CELLS

All Philishave rechargeable shavers have two power cells for: Longer Life, More Shaving Time, Greater Reliability.

TO GAIN MAXIMUM SHAVING PERFORMANCE
Due to the sensitivity of your skin, you should allow approximately 2-4 weeks for it to adjust to your chosen shaver.

ARE YOU TAKING YOUR APPLIANCE OVERSEAS?
If so this simple guide may help. "If your appliance has automatic or universal voltage there is no need to make any adjustment."

"If your appliance has a dual voltage switch you will not need to change the setting for European countries, most of which have 220-240 voltage supply systems, although an adaptor would be required (see page 220, key no 16). However in the USA or Japan, you will need to change to the 110-130 volt setting. Please take great care to switch back to the 220-240 settings on your return to the UK or other European country."

ADAPTORS
Several shavers are described as being chargeable from a 12-24V dc supply. This can be achieved only with an optional adaptor. These are available via our mail order service.

BRAUN

Designed to perform better

The Plaque Remover most recommended by dentists.*

- Unique oscillating cup-shaped brushhead removes plaque effectively by cleaning around each tooth and below the gumline.

- New INDICATOR Brushheads, with soft Oral-B bristles for daily protection of teeth and gums, help you monitor your brushing performance.

New.

After 3 to 4 months of proper usage.

You are exerting too much pressure on your teeth and gums and wearing out the brush-head too quickly.

Butane Gas Powered Stylers are permitted on planes in checked-in luggage and hand luggage. Gas refills are not permitted.

Cordless gas stylers put freedom at your fingertips - no leads, plugs or sockets and no hassle! So compact, they can be carried anytime, anywhere - a real essential for girls on the move. With Piezo Ignition, and powered by disposable gas cartridges, styling is made quick and easy. Available in 3 versions - Tong, Brush or a Combination containing both - to create soft waves, a slicky controlled style or voluminous curls. All stylers within our range are supplied complete with a stay-cool travel cover, one disposable gas cartridge and a manufacturer's 2-year guarantee.

POWER DRILLS SAFETY TIPS

In conjunction with **BSI**
the Royal Society for the Prevention
of Accidents, we have put together
the following safety advice.

▲ Always read and follow the
manufacturer's instructions before
starting work. If you lend equipment,
make sure that the user reads the
instructions for reference.

▲ Always fit a residual current
device (RCD) to the electric socket and
test it before using a power tool. This
disconnects the electric circuit if there
is a fault (order Cat. No. 982/1321).

▲ Wear safety goggles for DIY
activities (see page 425 for details of
our Safety GGL).

▲ Unplug the drill before fitting bits
and use good quality sharp bits in the
drill, making sure they are secured
firmly in the chuck.

▲ Don't leave cables trailing over
the edge of the work surface. When
the job is finished, put the drill away.

Power Drills and Screwdriver Features

Input Wattage

The power of the motor in your drill is measured by "input wattage". For tough, heavy duty jobs, or frequent and prolonged use, a drill with a high rating is important.

Chuck Size

This refers to the diameter of drill bit shank which can be put into the drill.

Keyless Chuck

Allows you to change a drill bit quickly without the need for a chuck key.

Speed

Varying materials and hole sizes require different speeds and power.

Single Speed

For straight forward drilling into wood, metal and plastic, a single speed drill may be suitable.

Two-Speed

Drills with two speeds allow greater flexibility in drilling through hard or soft materials. A two-speed drill will also allow you to select either fast or slow speed measured in RPM (revolutions per minute). The higher the RPM, the faster the rotation of the drill. When drilling into hard materials like masonry, you need to use higher speeds with hammer action.

Variable Speed Drills

For more control and precision a variable speed drill may be suitable. It will allow you to tackle a variety of tasks in different materials and thicknesses with greater accuracy than the two-speed drills.
Always read the manufacturer's instructions before using variable or two-speed drills.

Reversing

The drill is able to rotate in the opposite direction to normal. This is handy for screwdriving or removing a sticking drill bit.

Hammer Action

For tough jobs like masonry or concrete drilling. A drill with a hammer action literally "hammers" the drill bit into the wall (thousands of times a minute), as well as rotating it.

Torque Control

Drills with torque control continuously monitor the "resistance" to the drill bit. This means that if you suddenly encounter an impenetrable area, the drill will stop rather than risk damage to itself. Torque control is particularly useful if you intend using your drill as a screwdriver as it "feels" the resistance of the screw and prevents over tightening.

POWER DRILLS

SAFETY TIPS

In conjunction with, **Q&A** (The Royal Society for the Prevention of Accidents), we have put together the following safety advice:

▲ Always read and follow the manufacturer's instructions before starting work. If you lend equipment, make sure that the user reads the instructions for reference.

▲ Always fit a residual current device (RCD) to the electric socket and test it before using a power tool. This disconnects the electric circuit if there is a fault (order Cat. No. 982/1321).

▲ Wear safety goggles for DIY activities.

▲ Unplug the drill before fitting bits and use good quality sharp bits in the drill, making sure they are secured firmly in the chuck.

▲ Don't leave cables trailing over the edge of the work surface. When the job is finished, put the drill away.

Buying the right tools for the job can be the key to successful DIY. As cordless drills and screwdrivers have rechargeable batteries and no extension leads, they can operate at any distance from a mains supply. Cordless drills can still be used to drill holes in wood, metal, plastic and masonry if they have a hammer action facility. Those featured with variable speed and reverse can also act as a screwdriver.

Cordless Drill and Screwdriver Features

Voltage

The higher the voltage of a battery the more power the drill has for tougher jobs.

Trickle Charge

The batteries are charged slowly while the tool is not in use (i.e. overnight). They can be left on continuous charge with no harm to the batteries, so the tool is always ready to use.

Fast Charge

The batteries can be charged in approximately one to three hours depending on specification (but cannot be left on charge permanently).

Spindle Lock

Spindle lock allows a powered screwdriver to be used as a conventional hand screwdriver, particularly useful for exceptionally tough screws.

Keyless Chuck

Allows you to change a drill bit quickly without the need for a chuck key.

Removable Battery

A rechargeable, removable battery allows greater flexibility and continuous use, as a second battery can be charged whilst the drill is in use.

Keep Fit

Stay in Shape at Argos

Our range of in-home exercise equipment will enable you to exercise where and when it suits you. We have equipment to develop strength and stamina for men and women of all ages, for beginners and for experts. Whether you are looking for light exercise or for something more "serious", at Argos, we know how to take care of it.

Before you start, we recommend two key safety tips:

- ▲ Always consult your doctor before starting a new exercise programme which will involve a major increase in exercise compared to what you are used to.
- ▲ Never let children near any equipment whilst in use as serious injuries can be caused by moving chains, wheels and spokes.

Strength Training

There is a variety of keep fit equipment available at Argos which primarily helps to build up your strength.

Weights and Benches are the simplest way to increase your strength. With weights you can use either a barbell or dumbbell bar depending on the type of exercise you want to do. If you use a bench in conjunction with a set of weights it will allow you to develop your own training programme.

Multigyms are the most comprehensive fitness and body building machines for developing your muscles. They are fully adjustable so that you can progressively increase and decrease the weights and resistance on them. Our multigyms will suit everyone, whatever your age, sex or level of ability.

We've included a dimensions box next to each multigym, but do allow for the extra space needed when the equipment is in use.

Stamina Building

Exercise Bikes help you build up your aerobic capacity and are particularly good at helping to tone up the muscles in your buttocks, hips, thighs and legs.

Dual action cycles have adjustable pivoting handlebars enabling you to pedal and row, exercising the upper and lower body at the same time.

Rowing Machines are the single best machines for all round exercise by strengthening your legs and exercising your upper body.

Steppers provide one of the best forms of cardiovascular workout, using the largest body muscle groups and strengthening, toning and contracting muscles. Steppers are available in various formats from basic floor steppers to stepper climbers with electronic monitoring.

Treadmills are similar to jogging and walking and are renowned as one of the most intensive workout machines.

Ski Machines simulate cross-country skiing which is recognised as the best total body workout, both anaerobic and aerobic, exercising both the upper and lower body, whilst improving your stamina.

Now we've given you some key tips on keep fit equipment, have a look through the catalogue to see our full range and let Argos take care of it.

SIZING GUIDE: Check your
inside leg measurement
(without shoes) to find the
correct frame size to suit your
needs. For off road use,
choose a cycle with a smaller
frame size in the range shown. For road use a larger
frame will suit. E.G. inside leg 30 inch off road
18 inch frame, on road 20 inch frame.

Cameras

Most cameras are fitted with additional features to give greater flexibility when taking photographs. Some key features are explained below.

Features Guide

Flash

A **built-in flash** works directly off the camera batteries and is usually effective for up to 15 feet. A **low light indicator** shows when to turn the flash on. An **Auto/Sensor** flash will work automatically when there is insufficient light. On some cameras, a sensor flash can be turned off for atmospheric shots, or used as a **"fill-in"** flash when the subject is in the shade or against a bright background. **Red-eye reduction** utilises a light or pre-flash to contract the subject's pupils to reduce "red-eyes".

Motor Drives

Motorized load winds the film to the first frame ready for use automatically or by pressing the shutter button. After each shot, **motorized advance** automatically winds the film onto the next frame. At the end of the film, **motorized rewind** will rewind the film ready to take out.

Auto Focus/Focus Lock

Basic cameras have a fixed focus, which does not vary depending on how far away the subject is. Cameras with auto focus automatically focus on the subject in the centre of the viewfinder. "Focus Lock" allows you to focus on your subject and then recompose the shot, still holding your subject in focus.

Auto Exposure

The aperture varies to give the correct exposure for differing light conditions. On more sophisticated cameras a **programmed shutter** automatically adjusts the shutter speed. A **backlight compensation** facility allows for bright backgrounds such as snow or sand.

Zoom Lens

This allows you to bring the subject closer and frame the shot as required without having to move. The bigger the zoom (measured in millimetres) the nearer the image, and so the larger it will appear.

Twirl Lens

This enables you to choose between normal or a close-up shot depending on how you wish to frame the subject.

Macro Facility

This allows you to take clear, focused close-up shots.

Infinity

This feature is used when taking long distance shots or for shooting through glass with an auto focus camera.

DX Coding

The camera will automatically adjust to the speed of film you are using.

Self Timer

This enables you to set the camera to take a photograph approximately 7 seconds later, so that you can be in the shot as well! A dual self timer takes two pictures in succession whilst a special multi-frame self timer allows you to take up to four consecutive shots.

LCD Panels

On sophisticated cameras, these show the current function status, eg. selected flash, focus, mode, battery level and number of pictures taken.

Data Back

This allows the option of data to be printed on the face of your photograph enabling you to remember when the picture was taken and is available in two forms:

1. A manual data back will print the month and year if required.
2. A quartz data back offers a clock facility with LCD display and will print time/day/month/year if required.

Panoramic

This facility produces special "stretch" prints to create incredible scenic views or artistic compositions. These cameras either utilise an adaptor which is inserted prior to loading the film, in which case the whole film must be shot in panoramic mode, or a switch mechanism which will allow for shots to be mixed on the same film.

NB. Films containing mixed exposures will incur additional processing cost and we recommend that you advise the processor before having the film developed.

Non-mixed exposures i.e. all panoramic exposures are also more expensive and you should ensure that the processor has the capability to print these type of photos before they are submitted for developing.

A camcorder allows you to capture action in sound and vision. It gives high quality home video recordings and has a wide range of features to give you greater flexibility. To help you choose, our guide below explains some of the technical terms and features.

Tape Formats

There are 2 camcorder formats, using different types of tape.

8mm tape is a small cassette which gives up to 90 minutes recording, or 5 hours with **long play**.

Tapes are played back by plugging the camcorder directly into your TV or video recorder using the leads supplied. Recordings can be edited onto VHS tape via a video recorder.

VHS-C is a compact tape which can be played in your VHS video recorder, using the special adaptor supplied with all of our VHS-C camcorders.

They give up to 45 minutes of recording, which can be extended to 90 minutes with a **long play facility**. VHS-C tapes can also be played back by connecting the camcorder directly into a TV or video recorder 21 pin SCART socket. If you do not have a video recorder or 21 pin socket TV, you will need to buy an RF lead and adaptor - available from Argos Mail Order Services (telephone 061 976 4505 or ask in-store for details).

Features Guide

Power Zoom

This gives a smooth zoom-in action for close-up shots. The greater the zoom, the greater the magnification.

Full Range Auto Focus

This ensures that the subject stays in focus, no matter how close or far away.

Intelligent Auto Iris

The auto focus facility works through the lens to give clearer shots and a better colour balance.

Programme Scene Auto Exposure

This control ensures the auto exposure is correct for

different environments (sports, ski, twilight, parties or portrait).

Macro

A macro facility allows clear and focused close-up recordings.

Shutter Speed

A variable shutter speed allows slower speeds in low light conditions, whilst a high speed shutter gives clear shots for high speed action.

Lux Illumination

The lower the lux minimum illumination, the lower the light conditions in which the camcorder can still effectively record.

Fader

This allows you to smoothly fade in and out of different shots.

Flying Erase Head

When recording over old scenes this gives a cleaner transition from old to new recordings.

Title Memory

Title or dates can be superimposed onto recordings as a permanent reminder.

Edit/Camera Search

Previous recordings can be viewed through the camcorder for editing or to find the correct position to resume recording.

Long Play/Record

This feature allows you to record and play back for twice the normal time, i.e. 5 hours on a 90 minute tape.

Infrared Remote Control

This allows you to operate the playback features of your camcorder from the comfort of your armchair.

Insert Edit

This allows a new recording to be inserted between existing scenes.

Binoculars are useful for a variety of hobby and leisure activities. The keen rambler or nature observer, sports fans eager to capture a race or get closer to the action, and concert/theatre-goers who want a close-up view. Many binoculars featured have coated lenses to improve image brightness. Some are compact and fit easily into a pocket or handbag. Most have fold down rubber eye-caps allowing spectacle wearers to fold back the eye-caps and get closer to the eye-piece to see a clearer image.

Televisions

If you are looking for a large screen or portable television, Argos has a wide range for you to choose from with a variety of features.

Features Guide

TELEVISION SIZES

Television sets have always been described by the nominal size of the glass tube across its greatest diagonal. The figures shown in brackets eg (V34cm) refer to the actual viewable picture diagonal. For FST sets, which are normally quoted in cm, we have rounded to the nearest inch for ease of comparison. Batteries are not supplied unless otherwise stated.

For any queries about your TV, please ring the appropriate telephone number during normal office hours.

Bush/Alba 081 594 2363
Toshiba 0276 62222
Philips 081 665 6350
Hitachi 081 849 2027
Sharp 061 205 2623
Panasonic 0344 853943
Samsung 0952 292262 ext 2135

FST

This stands for "flatter squarer tube", which gives you improved definition, a wider viewing angle and less light reflection.

Teletext/Fasttext

This gives you up-to-date information on a wide range of subjects such as travel, news, sports and television programming. Teletext also gives subtitles on selected television programmes.

Fasttext is an updated system to give you quicker access to your chosen page of information. In order to ensure satisfactory text reception it is recommended that portable teletext TVs are used in conjunction with an external aerial.

SCART Socket

A SCART socket, when used in conjunction with SCART leads, gives an easy connection between your television, VCR, audio system or satellite receiver dish. SCART leads can also be used to connect your Camcorder to the TV to play back recordings.

Sleep and Wake-up Timers

Particularly useful if you want to watch television in the bedroom, you can programme the timer to switch the

television set to standby automatically, after you have fallen asleep. A wake-up timer acts as an alarm clock.

NICAM

NICAM is a high quality digital audio signal which is transmitted simultaneously with television pictures, giving a similar sound quality to compact disc.

To receive the stereo NICAM signal a television or video must incorporate a NICAM receiver which picks up the signal through your existing TV aerial.

A NICAM video recording must then be replayed through a NICAM or stereo TV to maintain the stereo sound.

On-Screen Display

A visual display on the TV screen will show which channel you have turned to, or any adjustments to the volume or colour.

Argos Personal Account

Spread the cost of a new television with an Argos Personal Account. See page 2 for details.

Extended Guarantees

All our televisions have a 1 or 2 year manufacturer's guarantee, but for added peace of mind you can buy an Argos 3 or 5 year Extended Guarantee. We also offer Free Accidental Damage Cover. See page 3 for details.

GOODMANS HOME CINEMA HOME ENTERTAINMENT PACKAGE

The Goodman's Home Cinema package has been designed to offer hi-fi quality sound from your existing video recorder or player. It will also connect all TVs which have either a SCART socket or audio out or connection via video recorder. The product also features the Goodman's Active Logic surround sound system. This circuit is designed to be used with NICAM stereo video or NICAM TVs or satellite decoders, and will provide a new experience in listening pleasure with all round cinema style sound. The effect of this circuit is dramatic providing extra clarity and detail from the encoded soundtrack which would be lost in a normal mono TV.

We have also provided sockets for connection to game machines, keyboards, CD players or any external audio source.

- Two pairs of speakers.
- Master volume.
- Built-in sub-wind.
- Bass boost.
- 150 watt (P.A.M.C.).
- Near volume control and memory.
- Remote control requires 2 x AA batteries (order 1 of 9801949 at £1.59 pwt).
- Connections for TV, video, satellite, games.
- 2 x SCART to phone connectors provided.
- Suitable for TVs up to 25 inch screen.
- 2 x phono to phono leads.
- Size 19"/100 x 160 x 18"/40 inch.

Your Guide to

Video Recorders

All our VCRs allow you to record one programme whilst watching another. We also sell video players for watching pre-recorded videos, but these cannot be used for recording.

Programming

VCRs are programmed to record by using a remote control handset. Many have a visual LCD panel on the handset or an on-screen display showing the details entered.

Event Timer

You can programme most VCRs to record a number of events over a period of weeks.

Twain Speed

A twin speed (or "long play") facility allows the VCR to record and then play back at half the usual operating speed. The on-screen image appears as usual, but the recording time of a tape is effectively doubled. This gives 8 hours of recording on a 4 hour tape, however the quality of the recording may not be quite as good as when recorded at normal speed.

NICAM

NICAM is a high quality stereo sound signal. To receive the stereo signal, NICAM televisions and VCRs incorporate a NICAM receiver which picks up the signal through your existing TV aerial. A NICAM video recording must then be replayed through a NICAM or stereo TV to maintain the stereo sound.

EXTENDED GUARANTEES

All our VCRs have a 1-year guarantee, but for added peace of mind you can also take out an Argos 3 or 5-year Extended Guarantee.

We also offer FREE ACCIDENTAL DAMAGE COVER. See page 3 for details.

Reception difficulties - A good TV aerial, correctly positioned, will improve a snowy picture and reduce ghosting. A signal booster will amplify weak signals or supply several TV sets from one aerial. However, a signal booster on its own will not always resolve local reception problems, or cure ghosting. If you would like information on the aerials or signal boosters please phone the Labgear helpline on 0800 616481.

To help you choose, we have explained some of the technical terms.

Features Guide

Digital Tuners

Phase Lock Loop (PLL) digital tuners seek out stations by searching the whole waveband automatically for the most strongest signal.

Pre-set Buttons

You can select your favourite stations to be recorded in the memory, and then recall them at a touch of a button.

Dolby "B" and "C"

Dolby is a noise reduction facility that reduces the hiss when tapes are played, especially on "quiet" music. Dolby "C" is the enhanced version of Dolby "B", giving even clearer sound reproduction.

Relay Play

This allows the second tape on a twin deck to automatically take over when tape one has finished.

Auto Reverse

When your tape has finished, the cassette player automatically plays the other side.

High Speed Dubbing

On twin tape decks, this allows faster tape copying, usually at twice normal speed.

Graphic Equalisers

This allows you to "shape" the tone of the music being played by increasing or fading particular sounds.

The greater the number of bands, the more precise the equaliser.

Spectrum Analyser

This provides a visual display of the sound level in the form of "dancing lights", enabling you to make fine adjustments to sound and tone levels.

Compact Disc

Compact discs provide the most accurate sound reproduction available.

On CD midi systems, a search button allows you to select which tracks you want to hear. A memory facility allows you to programme a sequence of tracks in any order.

Turntables

Belt driven decks ensure a constant rotational speed. Fully automatic decks place the stylus on the record for you, and return it after the record ends. Semi automatic decks only return the stylus, you have to place it on the record.

Speakers

Within each speaker is a series of either 2 or 3 cones (known as "2 way" and "3 way" speakers). 3 way speakers usually give a better quality of sound. Active speakers for use with personal CD's and stereos have their own power source to further amplify the sound.

Music Output

The higher the number of watts the greater the capacity of the amplifier and the louder the sound will be. 2 x 20 watts music power means that there are 2 speakers with a maximum music output of 20 watts per speaker. Manufacturers generally express the potential maximum volume in one of three terms: As a comparison: 1w RMS = 2w MPO = 4w PMPO.

*The recording and playback of certain material may only be possible by permission. Please refer to the Copyright Designs and Patents Act 1988 and the Performers' Protection Acts 1958-72.

+Dolby is a TRADEMARK of Dolby Laboratories Licensing Corporation.

We sell a wide range of car stereos. Many of the functions are similar to those on hi-fi equipment, additional features include:

Fader

On 4-speaker systems you can adjust the sound balance between the front and back speakers.

Auto Seek Tuning

The radio automatically seeks out the next strongest signal on a waveband.

Radio Data Systems (RDS)

RDS displays the station name and maintains your chosen station automatically when travelling through different reception areas.

Extended Other Network (EON)

EON automatically interrupts your listening when travel bulletins when they are broadcast.

Extractable Units

Some units are designed to be easily removed when you leave your car and then on return slot into place for play.

Detachable Front Panel/Removable Security Panel

As an anti-theft device the front fascia panel of the unit is detachable and can be carried in pocket or handbag. When detached the unit becomes inoperable.

Child Safety

At Argos we sell a wide range of safety products which can help give you that extra reassurance and peace of mind.

Buying Toys

As your toddler begins to develop, there is a whole range of toys to buy. By following some key points you can make sure playtime is great fun for them as well as being safe.

- ▲ Always read the manufacturer's leaflet and retain for future reference.
- ▲ Make sure the toy is right for the child's age and ability - check the age recommendation before you buy.

- ▲ Keep older children's toys out of reach of young children and babies.

Safety in the Home

The following pages show some essential items which can help you make your home safe for your baby. We have drawn up some key points in conjunction with **ROSPA**, the Royal Society for the Prevention of Accidents.

- ▲ Fit a safety gate at the top and bottom of the stairs and keep stairs and landings clear of toys.
- ▲ Use a baby monitor to keep in touch with your child around the home, but remember there is no substitute for supervision.
- ▲ Use a fireguard securely fixed to the wall wherever you have a gas, electric or open fire.
- ▲ Make sure the side of the cot is securely fixed when your child sleeps and use a ventilated mattress.

Safety in the Car

When travelling by car there are certain points you need to remember to make sure the drive is safe as well as comfortable for your child.

- ▲ Check the child restraint is correct for the age and weight of your child and that it conforms to the appropriate British or European standard.
- ▲ Always read the manufacturer's leaflet as your child's safety depends on correct installation. If in doubt, check with your local Road Safety Officer.
- ▲ Check the child restraint harnesses each time you travel to ensure your child's comfort and security.

There is a wide range of child restraints which fit most car models on the following pages. Some child restraints may require fixing kits - check with your local dealer prior to fitting.

HELPLINE

For Britax car seat fitting information phone Britax Helpline: 0264 333343 Mon.-Thurs., 9am-5pm, Fri. 9am-4pm

(1) Forward facing: 9kg to 18kg (20-40lb) approx.
(2) Rearward facing: Birth to 9kg (20lb) approx.
Rearward facing child car seats should not be used in a car fitted with an airbag on the passenger side.
For lap and diagonal belt and seat belt adjuster see page 413.
Our child car seats fit most car models. Some require fixing kits; check with your local dealer prior to fitting.
Your child's safety depends on correct installation and proper adjustment of harnesses - follow manufacturer's instructions carefully.

PUSHCHAIR DO'S AND DON'TS

DON'T: Carry additional children in/on pushchair. Hang shopping from handles or carry shopping in locations other than the shopping tray provided. Leave child unattended in pushchair. Allow child to operate your pushchair or use it as a toy. Machine wash pushchair seat unless it is advised in the instruction leaflet. Force pushchair into folded position - refer to the instruction leaflet if any difficulty.

DO: Ensure pushchair is correctly erected with primary latches in place before use. Return seat to the correct position, parallel to the handle (where appropriate) before folding. Ensure child wears a safety harness correctly fitted/adjusted. Ensure that child (and any other nearby children) are clear of moving parts before making any adjustments/folding or unfolding. Take care when loading pushchair into a car boot that it is not crushed. Check regularly that all joints, fixings, straps and catches etc. are secure/in full working order.

1 **PLAYSKOOL, MAGICAL MOONBAM** A magical light show which is perfect for soothing restless babies to sleep. Babies are captivated by four characters which move across the ceiling against a night time background of moons and stars. Accompanied by the soothing Brother's Lullaby, focus button ensures the image is always clear at all heights. Switches itself off automatically. Requires 4 x C batteries (order 2 of 980/1956 at £2.85 pair). Suitable from birth.

Cat. No. 354/2149 **£14.75**

2 **PLAYSKOOL FLAP 'N' QUACK DUCKLING** Soft activity toy and first companion for baby. By pulling the large green wings, baby can make the duckling flap his wings and produce a quacking sound. With bell inside his hat, a safety mirror on his foot and satin wings. Attaches to cot or playpen. Suitable from birth.

Cat. No. 354/4886 **£14.75**

3 **PLAYSKOOL COLOUR 'N' CONTRAST QUILT** A large bright activity quilt designed to keep baby amused and to stimulate its sense of touch and sight. Twelve fun activities include a teething ring, funny car, safety car, squeaking kitten and peek a boo flaps. Machine washable and dryer safe. Suitable from birth.

Cat. No. 353/3330 **£9.99**

4 **SUPERSTORES ONLY PLAYSKOOL PUPPY QUILT** A quality padded quilt with a new dimension. As well as being a bright puppy-shaped activity quilt with 9 features to amuse and stimulate baby, the quilt converts into a wrap. The head area can be welcomed together to form a hood, while the quilt wraps around baby's body. Suitable from birth.

Cat. No. 354/6334 **£16.99**

5 **TOMY SUNSHINE ACTIVITY MOBILE** This two stage toy literally grows up with your baby. For the first months the mobile moves to soothing music. Simply wind up the yellow knob and the sun rocks back and forth playing a melody. Height adjustable straps attach it securely to the cot. Then once baby starts to join in, the mobile can be removed and the Activity Centre features come into play, including a rattle and roll rainbow, pinto and squirrel elephant, push-and-click teddy and a rotating star shaped safety mirror. Suitable from birth.

Cat. No. 354/2156 **£18.50**

6 **SUPERSTORES ONLY TOMY MUSICAL MAGIC MIRROR** Wind it up and the mirror magically becomes a revolving display of animal pictures and coloured lights. As Orophea's "lullaby" soothes baby to sleep. Push the moon switch to see the lights come on. Attaches to cot. Requires 4 D batteries (order 2 of 980/1963 at £2.95 pair). Suitable from birth.

Cat. No. 353/9042 **£14.75**

7 **TOMY "PUSH 'N' MERRY" MERRY-GO-ROUND** Push the knob and the animals dance, flower spins and bells ring. Suitable from birth to 18 years.

Cat. No. 352/4514 **£4.99**

8 **TOMY LULLABY LIGHT SHOW** A musical night light which projects a revolving display of animals and figures on nursery ceiling and walls as it sends baby to sleep with the sounds of Brother's Lullaby. Requires 3 D batteries (order 2 of 980/1963 at £2.95 pair). Suitable from birth.

Cat. No. 352/8709 **£13.50**

9 **SUPERSTORES ONLY TOMY LULLABY TEDDY BEAR** When baby starts crying in the night, this voice activated bear plays the soothing lullaby "Rockabye Baby" and its cheeks glow with a gentle light to measure baby. Both slowly fade as baby goes back to sleep. A cuddle cot companion who makes sure everyone gets a good night's sleep. Requires 3 AA batteries (order 2 of 980/1949 at £1.59 pair). Suitable from birth.

Cat. No. 354/6341 **£19.50**

1 TOMY TV TEDDY. Your lovable interactive video friend who never stops talking! TV Teddy's unique talk box gives him an unlimited vocabulary. He interacts differently to each of his videos and his eyes and mouth move as he laughs, talks and sings along with the child. He doesn't need to face the TV and can be carried around and hugged without his performance being affected - even up to 20 feet away from his talk box. Includes a special 30 minute video. Requires 4 x AA batteries (order 2 of 9801949 at £1.59 each) and 4 x C batteries (order 2 of 9801956 at £2.35 each). For ages 3 years and over. **Cat. No. 354/5775 £49.99**

2 GRANDSTAND TOMY TV TERRIER. He's a dog that talks, nods, wags his tail and sings along to his own special index. Toby will respond to the television when using his own special 30 minute video. Complete with one video - "Meet Toby Terrier". Requires 2 x C batteries (order 1 of 9801956 at £2.35 each) and 1 x 9V battery (order 1 of 9801970 at £2.35 each). For ages 3 years and over. **Cat. No. 354/5768 £44.50**

3 PLAYSKOOL TEDDY RUMPIN'. A cuddly teddy bear who will become a real friend. He becomes "Tally" moving his eyes and mouth as he talks, sings and tells stories from the colourful story book, making learning to read fun for toddlers. Includes cassette and story book. Requires 4 x AA batteries (order 2 of 9801949 at £1.59 each). For ages 3 years and over. **Cat. No. 354/7065 £38.50**

Let ME be your best friend! We'll have hours of video fun talking and singing together!

Always choose toys that suit the age and ability of your child.

Some of the toys require assembly under adult supervision.

The Lion Mark is a symbol of Toy Safety and all Argos toys are tested for compliance with exactly the same approved safety standard.

It is important that young children are supervised by parents especially in group play situations. It is recommended where stated that outdoor activity toys are permanently concreted into the ground.

just why we are the premier incentives company in the U.K.

One of our clients recently had us blushing with pride. "If anyone can rest on their laurels," he said, "it's Argos Premier Incentives." "Thanks, but no thanks," we replied.

That's not false modesty. It's fact.

Since 1979, Argos Premier Incentives have grown to become the UK's leading incentive and motivation company. Since then we have never stopped listening. We have never stopped learning. And we never will.

With pride – and a rare flourish of immodesty – we can say that the magnitude of our portfolio might just surprise you.

Open it and you'll find more than paper-based incentives such as Vouchers and Tokens. Our Premier Gift Collection catalogue, a first among so-called equals, is a showcase for the branded products we offer in merchandise-based systems. And our Premier Points Card is acknowledged as the benchmark for all other electronic motivation schemes.

If anything can match our portfolio, it's our back-up service. We have access to some of the largest resources in the UK. Our warehouse capacity, for instance, measures a formidable 2 million sq. ft.

While we're multi-faceted, we're also single-minded. Solutions are the last thing we think about: a clear understanding is the first. It is this approach which we have applied to blue-chip clients like Mobil, the Granada Group and Crown Berger Ltd.

Our new brochure explains more. It demonstrates our belief in the principle of 'digest first, suggest later'. And shows how, while we serve big companies with pride, we serve smaller names without prejudice.

Point taken?**

The Argos Premier Points Collecting Card was the first ever electronic loyalty-building scheme.

To date we've issued over 20 million Cards.

They've helped to increase market share for Mobil and they could do the same for you.

If customer loyalty is your number one priority, you should be talking to the UK's premier incentive company.

Free spending money at ~~Argos~~ with Premier Points from **Mobil**

Easy to save at Mobil...

Every time you buy fuel at Mobil, Points are automatically stored onto your Premier Points Collecting Card.

There is no minimum purchase of £5 or £6 – and remember, every Point you save means more to spend at Argos.

Easy to spend at Argos...

Spending Points at Argos is easy too. Just take your card or cards to any Argos cashier who will convert them into a cash value. Pay with Points alone or top up with cash or any other accepted method of payment – the choice is yours. For more details pick up a leaflet at your nearest participating Mobil Service Station.

COMMITTED TO QUALITY AND SAFETY

We want you, our valued customer, to have total confidence in the Safety, Quality and Reliability of every product purchased from Argos.

All Argos products are guaranteed against manufacturing defects for a minimum of 12 months. In those instances where the manufacturer's warranty extends beyond 12 months we will of course honour the terms of the manufacturer's guarantee.

(See separate note on our After Sales Care policy on page 676.)

Our Quality Assurance Department ensures that all Argos products which are governed by strict Safety Regulations are tested to establish compliance with such regulations. In most cases the tests will be carried out by independent laboratories.

Particular attention is given to both Nursery and Toy products, and all Argos toys are tested for compliance with exactly the same safety standards as those governing the Lion Mark, which is a recognised symbol of toy safety.

All Argos toys are tested for compliance with EC Safety Regulations which is signified by the "CE" mark on all our toy products.

All our electrical products, where appropriate, are now supplied with a pre-fitted plug. Look out for the fitted plug symbol on the relevant pages.

All the glass employed in the manufacture of our Furniture products is constructed to minimise the risk of serious accidents. All our upholstered furniture is manufactured to comply with Safety Regulations, which includes both match and cigarette ignition tests.

Upholstered Furniture Selection Centre

To ensure that the item you order is exactly what you want, please see our Upholstered Furniture Selection Centre in your local Argos store for fabric samples used in the manufacture of our furniture, as well as product specification.

Wood Colour Guide

You can also check the colour of our wood and wood effect furniture by using the Wood Colour Guide located at the back of the Selection Centre book.

AFTER SALES CARE

The Argos Promise

■ See page 2 for details of the Argos 16-Day Money Back Guarantee.

■ If a product develops a fault within the first 30 days of purchase we will offer you the choice of an exchange or a full refund.

■ If a product develops a manufacturing fault after 30 days of purchase and within a year from the date of purchase we will have the item repaired for you **Free of Charge**.

In those instances where the manufacturer's guarantee extends beyond one year we will of course honour the terms of that guarantee. Most repairs are normally carried out within 16 days.

In either of the above cases simply return the item with your proof of purchase to your nearest store.

Please note: all the accessories originally supplied with the product must also be returned.

■ Many electrical appliances can also be serviced in your home or on-site, please ask in-store for details.

Argos supports the guidelines for guarantees set by the British Retail Consortium, and we are committed to ensuring that our After Sales Care policies are offered in addition to your statutory rights (which remain unaffected).

Extended Guarantees

DELIVERY SERVICES

To make shopping at Argos even easier and more convenient, we offer the following delivery services

Free Home Delivery Service

ARGOS DIRECT 14 DAYS

■ Anywhere in Great Britain and Northern Ireland (but excluding The Channel Islands, Isle of Man, Orkney, Shetland and the Western Islands).

■ Delivery normally within 14 days.

■ Order in-store or by telephoning ARGOS DIRECT FREE LINKLINE (see below). We operate the Free Delivery Service on items which

are too large or heavy to stock in our stores, delivering them free of charge direct to your home. These items are marked by the red lorry symbol and are not available for collection from any of our stores.

Free 3 Day Home Delivery Service

We are able to deliver certain items (only those marked by the 5 day red lorry symbol) on a fast delivery service, three working days from the date of order (except in the excluded areas listed above).

Free Delivery and Installation on Selected Computers

Our Free Home Delivery on

selected computers also includes unpacking and setting up in the home. See page 131 for more details.

(We regret that this offer is not available in the Channel Islands, Isle of Man, Orkney, Shetland or the Western Islands.)

How to Order

You can order any of the items covered by Free Home Delivery at the Customer Services area in our stores, or you can order by telephoning the ARGOS DIRECT FREE LINKLINE anytime between 8.00am and 10pm, 7 days a week giving your order and credit card details. Once you place an order, we will contact you to arrange delivery. Delivery will normally be within 14 days, unless otherwise indicated in the item description or at the time of ordering.

To ensure delivery before Christmas, please place your order before 17th December (5 day service) or 7th December (14 day service).

PLEASE NOTE: The 0800 Linkline number can only be used for placing orders for items marked in the catalogue with a red lorry symbol. When ordering you will be given an alternative number for any other queries.

Superstore Delivery Service

■ Deliveries anywhere within 20 miles of any Argos Superstore.

■ One small delivery charge covers as many catalogue items as you wish to order (excluding those delivered

free by Argos Direct).

■ Order by telephone or in-store.

Free Delivery and Installation on selected TVs*

As an extension to our Superstore Delivery Service, we also offer FREE DELIVERY AND INSTALLATION on all large screen televisions* (20 inch and over) and VCRs from any Argos Superstore.

Installation is to an existing electrical socket and adjacent aerial point. This offer applies within a 20 mile radius of any Superstore (mainland only).

See page 499 for more details.

How to Order

You can order by telephoning the Superstore during normal working hours, just giving your order and credit card details. Or you can arrange delivery when you order in-store (see over for your nearest Argos Superstore and telephone number).
